# FAST

This service is a “light” retouching using skills such as horizon adjustment or cropping to offer a well-proportioned image.

Partial retouching can be used only when there is too much light or stains.

You will have to provide 2 retouched images which must be different.

Black & white technic can be used, but with colour toning.

Maximum duration: 15min

## What I should do.

- A retouching in colour
- A colour retouching with a different crop
- One possibility could be B/W but only if the photo looks good
- Image cropping
- Image straightening
- Colour correction
- White balance
- Stain removal
  
- Don't canvass people or things in the foreground
  
- Rejecting inappropriate images
  
- The second retouched with a different crop
